 **Faster checkout**

 **Smarter stock control**

 **Clear business reporting**

 **Online and offline capability**

THE CHALLENGE

Running a Business Should Not Feel This Complicated.

When sales, stock, customers and expenses are managed in different places, important information gets lost. MartPoint brings them together.

Before MartPoint

- Sales recorded in notebooks or separate spreadsheets
- Stock shortages discovered too late
- Customer debts and payments difficult to follow
- Limited visibility into staff and branch activity
- Reports prepared manually

With MartPoint

- ✓ Completed sales recorded in one system
- ✓ Stock levels updated as transactions happen
- ✓ Customer balances and payment history available
- ✓ Role-based visibility across branches
- ✓ Business reports available when needed

PRODUCT PREVIEW

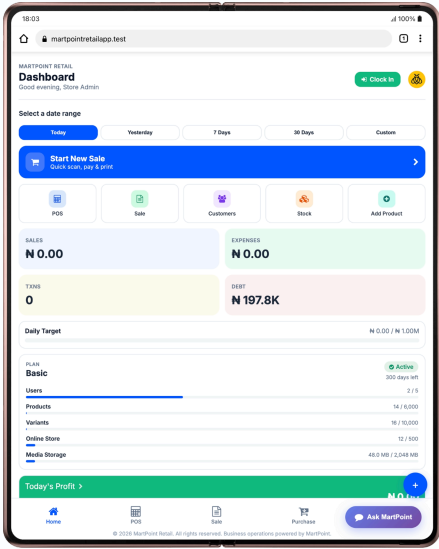

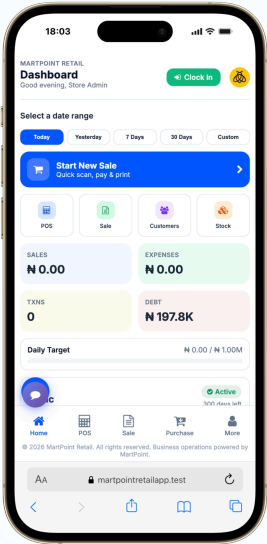

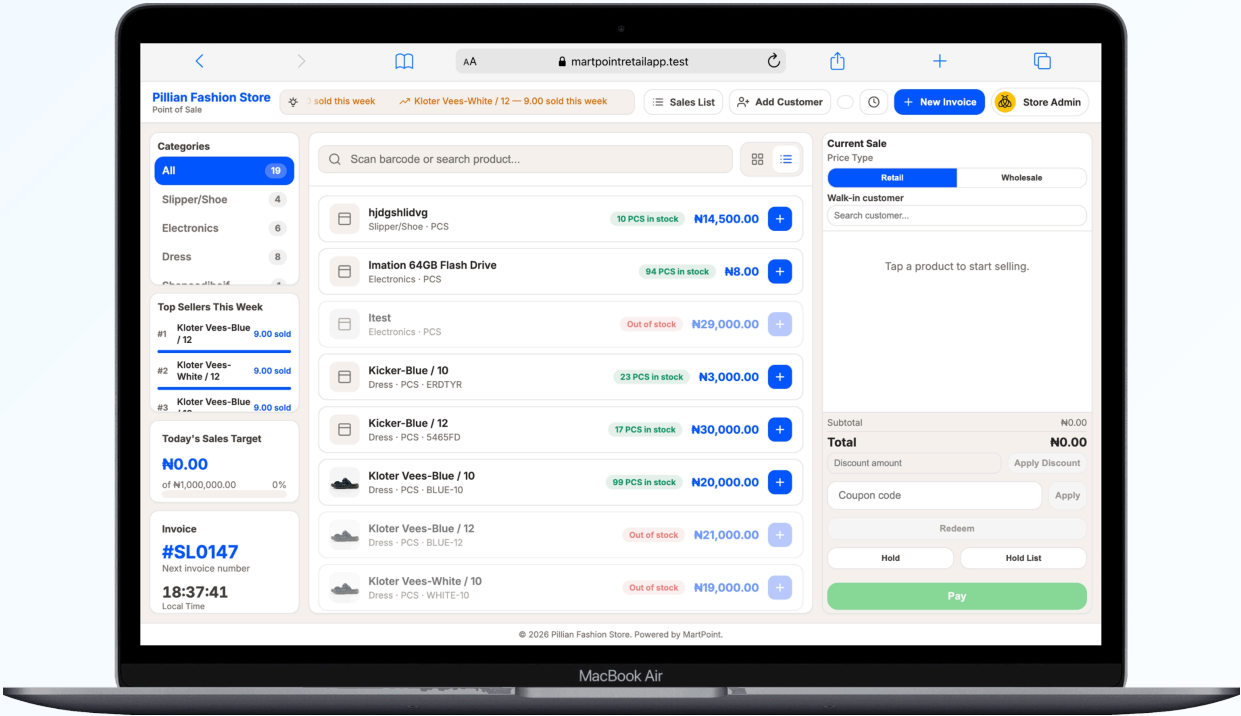

Built for Every Screen.

One system, from the counter to the back office.

Point of Sale on the desktop, the mobile dashboard in your pocket, and the full business view on a tablet — all in one connected platform.

Desktop Point of Sale

Fast, barcode-ready checkout with cash, transfer and credit sales in one screen.

Two Solutions. One Connected Business Ecosystem.

MartPoint Retail

For stores and service businesses

For retailers and service businesses that need to manage sales, stock, customers and daily operations.

- ✓ Sales, purchase and stock movement reports
- ✓ Expiry and low stock alerts
- ✓ PDF export of any report

Designed Around the Way Your Business Works.

Supermarkets and Mini Marts

Sell faster with fast checkout, live stock and branch visibility.

Pharmacies

Stay compliant with prescription notes, batch tracking and expiry alerts.

Restaurants and Bakeries

Serve smoothly with orders, menus and payments in one flow.

Fashion and Beauty Stores

Never miss a sale with sizes, colours and variants tracked perfectly.

Electronics and Phone Stores

Protect your stock with serial numbers, warranties and full tracking.

Salons and Spas

Delight clients with appointments, services and staff rosters in one place.

Distributors and Wholesalers

Scale your supply chain with bulk sales, credit and stock under control.

Service Businesses

Deliver on time with bookings, payments and service workflows organised.

From Onboarding to Everyday Business Control.

A structured setup that moves your team from first login to live sales, with support at every stage.

1

Understand Your Business

We review your business type, branches, users and operational requirements, then map your sales and stock workflows so the setup matches how you already work.

2

Configure MartPoint

We configure the appropriate plan, features, roles, products, payment methods, branches and reporting so the system is ready for your first transaction.

3

Prepare Your Team

Your team receives guided onboarding and scheduled training. Cashiers, managers and admins see only the screens and permissions relevant to their roles.

4

Start Operating

Begin recording sales, managing stock and monitoring the business from one system. Support remains available through your first weeks of live use.

Every implementation includes

- ✓ Business requirement review
- ✓ Product, customer and supplier import support
- ✓ Role and permission design
- ✓ Staff training and go-live support

★ Business Control Benefits

-  Guided onboarding
-  Role-based access
-  Business-specific configuration
-  Documentation and support
